this book explains the key concepts of evidence law clearly and concisely set against the backdrop of the broader political and theoretical contexts it helps to inform students of the major debates within the field providing an explanation as to how and why the law has developed as it has

in the 1970s basil berstein s work on children s sociolinguistic codes and his formulation of the contexts in which they are transmitted were the most influential in the field however as diana adlam points out neither code nor context as bernstein saw them can be properly grasped until they are understood in interaction originally published in 1977 this collection of papers contains both theoretical and empirical investigations of bernstein s ideas and seeks to make that necessary connection the study as a whole is concerned primarily with basil bernstein s ideas on the relationship of different familial transmission systems to the way in which children learn to use language the theoretical chapter stresses bernstein s present emphasis on the semantic orientations which different children may be acquiring and discusses these ideas in relation to work being done elsewhere at the time by other sociolinguistics particularly in the united states the empirical chapters provide analyses of how children of different social backgrounds differ in their approach to language use and also show the structural relationship of talk across a variety of specific contexts today it can be read against its historical backdrop

the canadian environment in political context uses a non technical approach to introduce environmental politics to undergraduate readers the second edition features expanded chapters on wildlife water pollution land and energy beginning with a brief synopsis of environmental quality across canada the text moves on to examine political institutions and policymaking the history of environmentalism in canada and other crucial issues including indigenous peoples and the environment as well as canada s north enhanced with case studies key words and a comprehensive glossary olive s book addresses the major environmental concerns and challenges that canada faces in the twenty first century

this research book presents the agent theory and adaptation of agents in different contexts agents of different orders of complexity must be autonomous in the rules used the agent must have a brain by which it can discover rules contained within the data because rules are the instruments by which agents change the environment any adaptation of the rules can be considered as an evolution of the agents because uncertainty is present in every context we shall describe in this book how it is possible to introduce global uncertainty from the local world into the description of the rules this book contains ten chapters chapter 1 gives a general dscription of the evolutionary adaptation agent chapter 2 describes the actions and meta actions of the agent at different orders chapter 3 presents in an abstract and formal way the actions at different orders chapter 4 connects systems and meta systems with the adaptive agent chapter 5 describes the brain of

the agent by the morphogenetic neuron theory chapter 6 introduces the logic structure of the adaptive agent chapter 7 describes the feedback and hyper feedback in the adaptive agent chapter 8 introduces the adaptation field into the modal logic space as logic instrument in the adaptive agent chapter 9 describes the action of the agent in the physical domain chapter 10 presents the practical application of agents in robots and evolutionary computing

this work presents the structure distribution and semantic interpretation of quantificational expressions in languages from diverse language families and typological profiles the current volume pays special attention to underrepresented languages of different status and endangerment level languages covered include american and russian sign languages and sixteen spoken languages from africa australia papua the americas and different parts of asia the articles respond to a questionnaire the editors constructed to enable detailed crosslinguistic comparison of numerous features they offer comparable information on semantic classes of quantifiers generalized existential generalized universal proportional partitive syntactically complex quantifiers intensive modification boolean compounds exception phrases etc and several more specific issues such as quantifier scope ambiguities floating quantifiers and binary type 2 quantifiers the book is intended for semanticists logicians interested in quantification in natural language and general linguists as articles are meant to be descriptive and theory independent the book continues and expands the coverage of the handbook of quantifiers in natural language 2012 by the same editors and extends the earlier work in matthewson 2008 gil et al 2013 and bach et al 1995

in context is an intermediate level integrated reading text which combines high interest contemporary topics with comprehensive skill strategy practice

despite the wealth of empirical research currently available on the interrelationships of gender and labor we still know comparatively little about the forms of classification and categorization that have helped shape these social phenomena over time categories in context seeks to enrich our understanding of how cognitive categories such as status law and rights have been produced comprehended appropriated and eventually transformed by relevant actors by focusing on specific developments in france and germany through a transnational lens this volume produces insights that can be applied to a wide variety of political social and historical contexts

this new edition of mental health social work in context continues to be an authoritative evidence based introduction to an area of specialism chosen by many social work students grounded in the social models of mental health particularly relevant to qualifying social workers but also familiarising students with social aspects of medical perspectives this core text helps to prepare students for practice and to develop their knowledge around promoting the social inclusion of people with mental health problems the changing context of multidisciplinary mental health services an integrated evidence base for practice working with people with mental health problems across the life course in this new edition the author has reflected on the impact of the global recession and austerity policies both on the mental health of the population but also the much sharper conditions and reduced services within which social workers are now operating this fully updated 2nd edition is an essential textbook for all social work students taking undergraduate and postgraduate qualifying degrees and will also be invaluable for practitioners undertaking post qualifying awards in mental health social work
